MAY 2001

Sir:

Further to the April 27, 2001 Amendment, and the May 16, 2001 personal interview,  
please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace claims 1, 8, 14 and 21 as follows:

1. (Five Times Amended) A piezoelectric resonator, comprising:  
a piezoelectric resonator element having a piezoelectric body and electrodes  
disposed on the piezoelectric body;  
a supporting member supporting said piezoelectric resonator element; and  
a plurality of leads mechanically connecting said piezoelectric resonator  
element to said supporting member and permitting electrical connection thereof, each of said  
leads being provided with a flat leading end portion having a substantially U-shaped edge  
which opens toward a leading end of the leads, each flat leading end portion being connected
